Display information on record regarding this Sold-To/Install.

Composite Host ID

The Composite Host ID (CID) entry and information page.

Inserire l'IP Address – se si desidera inserire più indirizzi, separare ciascun IP address con “punto-e-virgola” – poi click sul pulsante **Register**:

TAPPING THE POWER OF PLM
Products & Solutions

License Management

Sold-To/Install: 0000076840
Location: VISTEON CORP
ONE VILLAGE CENTER DRIVE
BELLEVILLE, MI 48111-5711

Please enter your IP address. Multiple addresses may be registered using a semicolon as a separator.

**IP Address:

A registered IP address is needed to comply with US Federal Export compliance and required to download any full product releases. If you do not know your IP address, there is a website <http://www.whatsmyip.org> that will return the value of your current IP address. Or you can enter the command, ipconfig, from a command window on Windows or a shell prompt on UNIX to retrieve your current IP address.

If you are using a Proxy Server, you can register the IP address or addresses of your Proxy Server. You can enter multiple individual IP addresses separated by semi-colons (;) using this utility, but not a range of addresses. After your IP address is registered, you will need to contact your Customer Services Representative to make any changes. To contact your CSR in North America, dial +1 800-955-0000 or +1 714-952-5444 and select option 1-1. If you are outside North America, contact your local support office.

For more information or help with the FTP server and product downloads, go to: <http://ftp.ugs.com/help/index.php>

***IP Address field cannot exceed 130 characters.

Gli IP Addresses saranno visualizzati nel seguente modo:

The screenshot displays a software interface with a blue header. The header contains the text "TAPPING THE POWER OF PLM" and "Products & Solutions" over a background image of gears. Below the header, the section "License Management" is visible. It includes the following information:

- Sold-To/Install:** 0000076840
- Location:** VISTEON CORP
ONE VILLAGE CENTER DRIVE
BELLEVILLE, MI 48111-5711

Below this information, the section "IP Address Currently Registered" is shown, listing the IP addresses: 123.234.345.66; 123.234.345.77; 123.234.345.88.

A "Home" button is located at the bottom left of the interface. A grey warning box at the bottom right states: "The displayed IP Address is registered. Contact your local Support Representative to change this address."

Se un utente deve cambiare l'IP address registrato, deve richiederlo al CSR locale per cancellare i dati esistenti nel sistema SAP. Poi l'utente deve collegarsi di nuovo alla pagina Web (dopo aver fatto ripartire il browser). Potrà a questo punto registrare le nuove informazioni per l'IP Address.

Note: il CSR può solo cancellare IP address esistenti, su richiesta del cliente. Non può inserirne di nuovi.
